

Application No: 10/532765

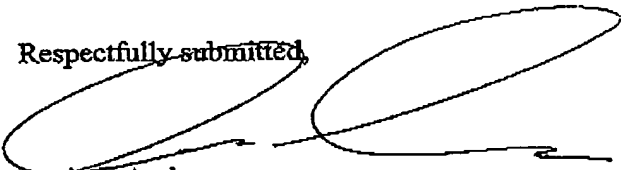

Remarks

Applicants submit this paper and request entry of the amendments herein. Claims 1-26, and 33-35 are currently pending in the application. Claims 1, 15 and 18 have been amended. No new matter has been introduced.

Claim 1, the definition of Y has been limited in respect of the options quinolyl, isoquinolyl and naphthyridyl to those substituents when attached to the -O- or -S- atom at the 5 position. Basis for this amendment may be found on page 6, lines 30 to 32 of the application as filed. Also, to provide consistency between the claims, description and examples occurrences of the terms "quinolyl", "isoquinolyl", "naphthyridyl" and "thienopyridyl" have been amended to "quinolinyl", "isoquinolinyl", "naphthyridinyl" and "thienopyridinyl". It is submitted that the skilled person in the art would understand these terms to be synonymous.

Applicants respectfully request prompt consideration and allowance of the claimed subject matter. If a telephone interview would be of assistance in advancing prosecution of the subject application, Applicants' undersigned attorney invites the Examiner to telephone her at the number provided.

Respectfully submitted,

Arvie J. Anderson
